

Talotekniikka

lehti

The leading building technology magazine

Join us in building the building technology of the future – what you say on the pages of Talotekniikka magazine has a place.

Talotekniikka magazine is Finland's leading professional media focusing on technical solutions in the construction and real estate sectors. It offers up-to-date, in-depth and expert information on the entire field of building technology – from HVAC technology to automation, from energy solutions to smart property management.

The magazine is read by decision-makers, designers, contractors, property managers and real estate experts who make decisions every day that have an impact on the future of the entire building stock. Talotekniikka magazine acts not only as a source of information, but also as an influencer and trend setter in the development of a sustainable and smart built environment.

Why choose Talotekniikka magazine to support your media?

- You directly reach key people and decision-makers in the industry
- A strong position at the heart of building technology

40 % of the magazine's readers work in expert positions, 34 % in supervisory/management positions. 21 % of the readers are entrepreneurs in the building services sector. They operate in, among other things, design, contracting, industrial and technical wholesale, and the energy and refrigeration sectors.

Readers play a significant role in purchasing decisions.

Talotekniikka magazine and its digital channels open up a platform for phenomena and developments in the building services sector – as well as the people, communities, projects, products, and innovations behind them. Each magazine contains its own magazine-specific theme section.

Also in digital form.

More than a magazine.

MAINOS

Talo & Tekniikka

Energiätehokkuutta säädellään rakennuksissa pitkälti talotekniikalla, joten talotekniikka-ala kulkee ilmastotalkoissa etujoukoissa.

Talotekniikka-lehti tekee tärkeää työtä nostamalla esiin keinoja energiatehokkuuden edistämiseksi.

House & Technology

We publish two publications for consumers, the first in the spring and the second in the autumn. The total reach is over 300 000/time as the supplement is between Tekniikan Maailma and TM Rakennusmaailman.

Tekniikan Maailma is researched to be the most reliable, useful and versatile technology and science media in Finland. Readers know that Tekniikan Maailma provides useful information.

TM Rakennuslehti is a specialist magazine for those interested in home, construction and renovation. Its readers want to know about the many methods of construction and renovation as well as products and tools.

NOTE! Places are limited!
